

# ExamForge

# AI

The original ExamForge AI has been fully recovered from Vercel deployment history and GitHub's unreachable commit store, rebuilt on a Supabase-only architecture, and redeployed to production. This report documents every recovery, rebuild, and verification performed across the mission.

|              |                                                     |
|--------------|-----------------------------------------------------|
| Production   | <b>web-alpha-bay-87.vercel.app</b>                  |
| Backend      | <b>Supabase (PostgreSQL · Auth · RLS · Storage)</b> |
| Architecture | <b>Next.js 16 · 124 pages · 144 API routes</b>      |
| Date         | <b>August 25, 2026</b>                              |
